

The Medfusion Patient Portal: Intuitive. Indispensable. In Your Pocket.

The **Medfusion Patient Portal** is a convenient online connection to your provider that puts you in control of your healthcare.

You're never more than one click from any function with our new navigation bar

The portal will let you know if you need to complete any registration forms

Live chat is available for your technical questions (for participating practices only)

Messages

Connect With Your Provider: secure messaging allows you to recap your appointments, obtain lab results and get answers to your medical questions.

Appointments

Manage Your Appointments: Request, reschedule and cancel appointments at your convenience.

Ask a Question

Questions?: Eliminate phone tag by submitting questions to your provider online.

Prescriptions

Request Prescription Renewals: Request a renewal for your prescription medications.

Pay Bills

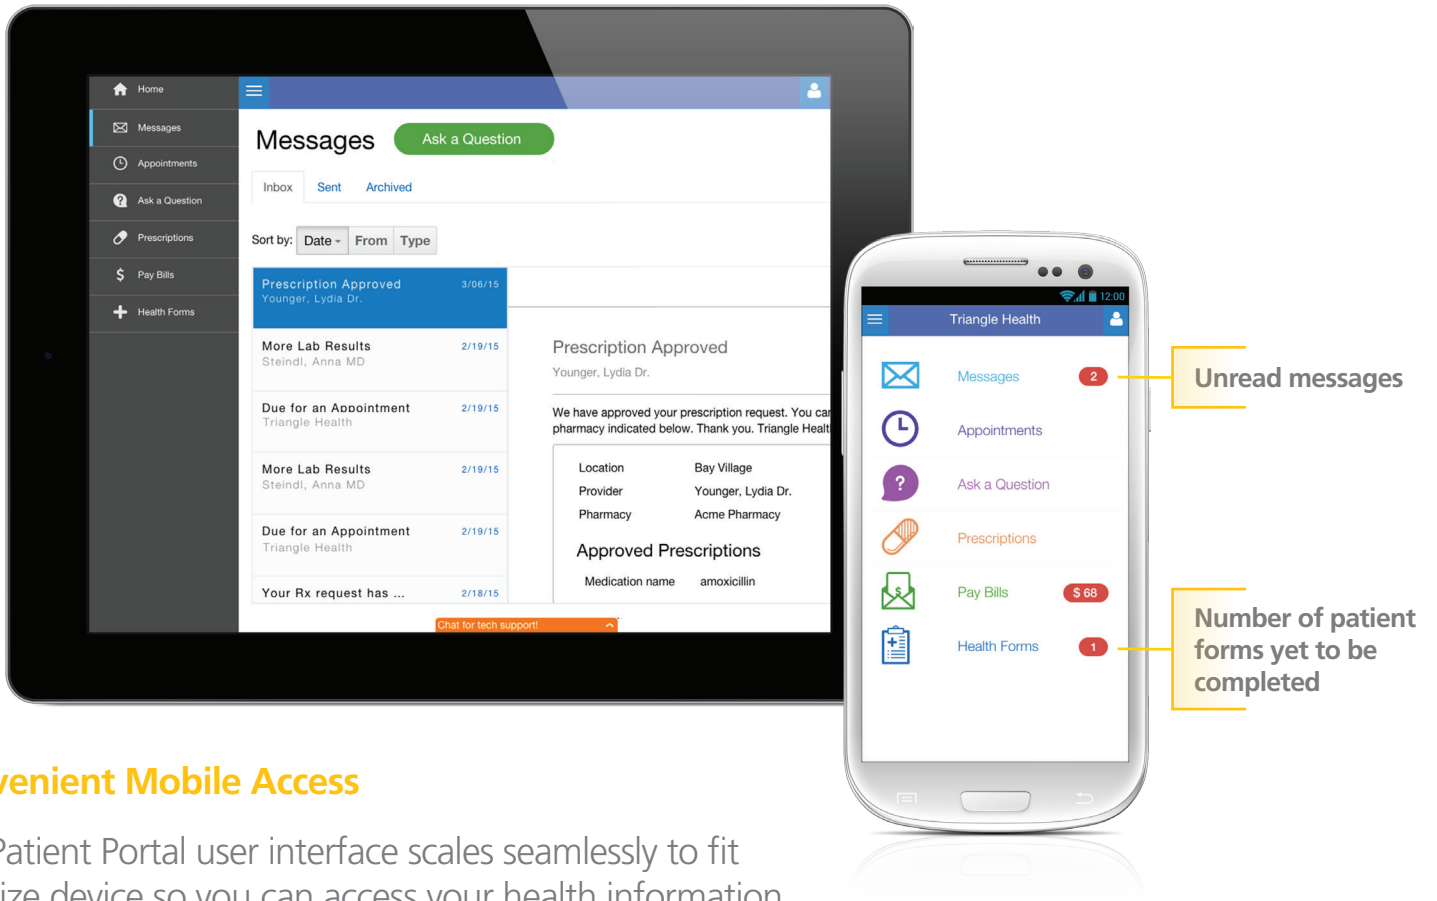

Pay your provider bills online at your convenience.

Health Forms

Complete paperwork before your appointments and maintain updated records.

Note: Your provider's practice may not offer all functions shown above.

Convenient Mobile Access

The Patient Portal user interface scales seamlessly to fit any size device so you can access your health information whether you're on a desktop, tablet or mobile device.

Get Started Today! It's as easy as 1-2-3!

- 1 Provide a valid email address to your practice and you will receive an invitation to activate your portal account.
- 2 Create a username and password and follow the onscreen prompts to create an account.
- 3 Use this username and password to securely access your health information online and communicate with staff.

Congratulations on taking charge of your healthcare!
